

the transportation clause, and that is all that you have in the bill right now. You gave promises that if the people in the east half of Nebraska would go along with the transportation cost you would give them the 15% mark-up. Now you are going or not going to even give them the 15% mark-up. You are just giving them transportation cost of \$1.50 per carton.

SENATOR CARPENTER: If what you say is true Senator then they will probably all then kill the bill on Final Reading and that will satisfy you and the people that you are sent here to represent.

SENATOR GOODRICH: I would certainly recommend that anyone living in the east half of Nebraska read this bill. Because all you are doing in the bill is tiving yourself and your people a \$1.50 per carton charge for transportation as a minimum charge. For example if you are in Grand Island and you order 8 cases and you pay \$1.14 per case, under this bill you would pay \$1.14 per case would give you 9.34 and you would pay \$12.00, the minimum transportation. If you are in Lincoln for example the transportation cost is \$.80 per carton and 8 times 80 is \$6.53 to get specific is what you are now paying for the deliver of 8 cartons it would cost you \$12.00 minimum on that shipment. Anyone living in the east half of Nebraska is not getting a thing in return for voting for this particular bill. All you are doing is adding cost to the people of your district. Thank you.

SENATOR CARPENTER: I think that Senator Lewis has an amendment that he would like to offer.

SENATOR LEWIS: Mr. Chairman, this is somewhat embarassing but I will over come it. The amendment that I put in on section 9 of the committee amendments on partial cases, is not adequate to do what I intended and it creates other problems, like it says that you can have partial delivery of cases of beer which I think would add to a lot of confusion, so I would simply like to strike the amendment that I PUT on on Select File. That is strike partial cases from section 9 of the committee report, from the committee amendment. I have those written up.

PRESIDENT: Will the Clerk read that motion please?

CLERK: Read motion.

PRESIDENT: OK....

CLERK: That is well said Denny, I appreciate that. I do have that drafted, it is upstairs in my office and on the way down. That motion would be the same thing.

PRESIDENT: Is that at the top of page 851?

CLERK: It is on 851 but I don't know where....

PRESIDENT: We do have to have that motion on the desk here.

CLERK: Read motion.

PRESIDENT: Any discussion of striking this amendment? If not we will have to have a vote on this. It will take 25 votes. Senator Cavanaugh.
